*Fiscal year totals are from the Public Accounts of Canada. Non-budgetary monthly data are from the "Statement of Financial Transactions." Quarterly data are the sum of the monthly data. Unlike the Public Accounts, the monthly estimates are unaudited.

**Residual

*Les données de l'exercice sont tirées des Comptes publics du Canada. Les données non budgétaires mensuelles proviennent de l'État des opérations financières. Les données trimestrielles s'obtiennent par addition des données mensuelles. Contrairement aux données des Comptes publics, les estimations mensuelles ne sont pas vérifiées.

* Because each of the component and aggregate series for the period prior to the 1992 base year is mechanically scaled to link with the post-base-year series, the individual component series do not sum to the corresponding aggregate series and from CANSIM, to 1992. Adjusting series designed to make the time series additive are available from Statistics Canada and from CANSIM.

* Comme les chiffres de chacune des composantes du PIB et du PIB global pour la période antérieure à l'année de base 1992 ont été ajustés pour être raccordés à ceux de la période postérieure, la somme des composantes est différente du chiffre global pour les années antérieures à 1992. On peut se procurer auprès de Statistique Canada et de CANSIM les séries d'ajustement servant à égaliser les résultats.

Note: Blank spaces in columns indicate data are either not available or not applicable. Owing to the rounding of figures, components may not always add up to the totals shown. A horizontal rule in the body of the table indicates either a break in the series or that the earlier figures are available only at a more aggregated level.

CANSIM Data bank identification numbers

Many of the time series published in the *Bank of Canada Banking and Financial Statistics* are available from Statistics Canada in machine-readable form, for use on computers and on printouts. Each time series of annual, quarterly, monthly, or weekly data on the CANSIM system (Canadian Socio-economic Information Management) has an identification number. Series maintained by Statistics Canada have D, L, P, or I prefixes (as in D1432), those maintained by the Bank of Canada have a B prefix (as in B318). The identification number is given as a reference at the top of each column of data and refers to the series of weekly, monthly, or quarterly data in that column. Where the frequency of a series as it is available on CANSIM is different from that shown in the table or where a combination of quarterly and monthly data is shown in the table, the frequency of the CANSIM series is indicated by a superscript M, if monthly, or by a superscript Q, if quarterly. Current and revised data are entered into CANSIM immediately on release.

Weekly series

The tables in the *Statistics* do not cover a full year of weekly data. For all Wednesday series, in the event that a holiday falls on a Wednesday, data for the preceding business day will be shown. Figures for weekly series for which the Bank of Canada is the source are available on request from the Department of Monetary and Financial Analysis, Bank of Canada, Ottawa K1A 0G9.

Notes to the tables

The reference notes to the statistical tables in the *Statistics* are printed separately and are updated and reprinted from time to time. The most recent note supplement is dated January 2000. Copies of the *Notes to the tables* may be obtained by writing to the Bank of Canada Review, Publications Distribution, Communications Services, Bank of Canada, Ottawa K1A 0G9. E-mail address: publications@bank-banque-canada.ca.

Notes relatives aux tableaux

Abréviations utilisées dans les tableaux

- D Série supprimée
- E Chiffres estimatifs
- R Chiffres révisés
- Valeur nulle ou arrondie à zéro

Nota - Les espaces vides des colonnes signifient que les données ne sont pas disponibles ou ne s'appliquent pas. Du fait que les chiffres sont arrondis, la somme des éléments ne correspond pas toujours exactement au total indiqué. Une ligne horizontale dans le corps d'un tableau indique soit qu'il y a une rupture dans une série, soit que les données des périodes antérieures n'existent que sous une forme plus agrégée.

CANSIM- Numéros de référence des séries de Databank

Nombre de séries chronologiques publiées dans les *Statistiques bancaires et financières de la Banque du Canada* peuvent être obtenues de Statistique Canada sous une forme directement exploitable par ordinateur ou sous la forme d'imprimés. Elles font partie intégrante du fichier CANSIM, dont chaque série chronologique - annuelle, trimestrielle, mensuelle ou hebdomadaire - est désignée par un numéro de référence. Les numéros des séries élaborées par Statistique Canada sont précédés de la lettre «D», «L», «P» ou «I» (par exemple : D1432), ceux des séries de la Banque du Canada, de la lettre «B» (par exemple : B318). Dans nos tableaux, le numéro apparaît en tête de colonne et désigne la série hebdomadaire, mensuelle ou trimestrielle qui figure dans la colonne; lorsque les fréquences de données figurant au fichier CANSIM et dans un tableau de la *Revue* diffèrent ou que le tableau comporte à la fois une série mensuelle et une série trimestrielle, la fréquence de la série CANSIM est indiquée par la lettre «M» si la série est mensuelle et par la lettre «Q» si elle est trimestrielle.

1. CANSIM est l'abréviation de Canadian Socio-economic Information Management System - Système canadien de traitement des données socio-économiques.

Séries hebdomadaires

Dans les tableaux des *Statistiques bancaires et financières*, les séries hebdomadaires ne couvrent pas une année entière. Lorsque le mercredi est un jour férié, les statistiques du mercredi sont établies à partir des données du jour ouvrable précédent. On pourra obtenir les données provenant de la Banque du Canada en s'adressant au département des Études monétaires et financières, Banque du Canada, Ottawa K1A 0G9.

Notes relatives aux tableaux

Les notes relatives aux tableaux des *Statistiques bancaires et financières* font l'objet d'une publication distincte et sont mises à jour et réimprimées de temps à autre. Data shown are subject to revision. These series cover all public issues as well as most private placements with an original term to maturity of more than one year. The data for all levels of government include guaranteed issues. Effective 5 November 1986, there has been an accounting change in the treatment of Canada Savings Bonds sold on the Payroll Savings Plan. These bonds are now gradually included in outstandings, as payroll deductions are remitted over the contract period. Previously, the total amount of payroll sales was included in outstandings in November. Data on the net amount of Canadian dollar bond issues placed abroad by provincial-municipal governments, financial corporations and non-financial corporations are available on a semi-annual basis from 1974 and may be obtained from the Bank of Canada's Department of Monetary and Financial Analysis.

Prior to 31 December 1971, Government of Canada issues payable in foreign currencies were converted into Canadian dollars at the following rates: from 30 September 1950 to 3 May 1962, U.S.\$1.00 = \$1.00; thereafter, U.S.\$1.00 = \$1.081; from 30 September 1950 to 3 May 1962, £1 = \$2.800; from 3 May 1962 to 18 November 1967, £1 = \$3.027; thereafter, £1 = \$2.995; prior to 26 October 1969, 1DM = \$0.270; thereafter, 1DM = \$0.295; from 15 May 1968 to 24 June 1970, 1 lira = \$0.00173. Since 31 December 1971, Government of Canada issues payable in foreign currencies have been converted into Canadian dollars at the noon spot rate of the day of delivery. All other issues payable in foreign currencies have been converted into Canadian dollars at the average noon market rate for the month. In the case of optional-pay issues, the option most favourable to the lender has been used. Data on gross new issues, retirements and net new issues of Government of Canada securities and provincial and corporate bonds are available quarterly from 1935; data on gross new bond issues placed in foreign markets, both total foreign bond issues and bond issues placed in the United States, are available from 1960. Data on NHA mortgage-backed securities (MBS) are available from 1987, and data on other term securities issued by special purpose corporations are available from 1994.

• *Provincial bonds* include issues purchased by provincial accounts and with Quebec Pension Plan funds.

• *Municipal bonds* do not include issues guaranteed by the provinces (already included in provincial bonds) nor issues sold directly to provinces and their agencies, which are shown in Table F8. The quarterly data for municipal retirements are estimated by pro-rating annual estimates and including partial data for large municipalities when available.

• *Corporate bonds* include all issues of Canadian corporations, with the exception of finance company and commercial paper with an original term to maturity of one year or less, and issues sold to a parent company, whether this parent is incorporated in Canada or abroad. • *Preferred and common stocks* are shown at offering prices, and retirements at the actual amount paid by the corporation. Pursuant to section 91 of the Canadian and British Insurance Companies Act, common stock retirements do not include purchases by life insurance companies of their own stock. Common stock retirements in 1961 and 1964 reflect the distribution by British Columbia Power Corporation to shareholders of funds received from the Province of British Columbia in payment for the common and preferred shares of British Columbia Electric Company Limited; the data reflect in 1963 the purchase by Quebec Hydro of privately owned hydro-electric companies, and in 1972 the purchase by the Nova Scotia Power Commission of Nova Scotia Light and Power Company Limited.

• Data for NHA mortgage-backed securities represent securitizations issued under the NHA MBS program, as reported by the program trustee, Montreal Trust Company of Canada.

Les données des Tableaux F4-F10 sont sujettes à révision. Elles englobent toutes les émissions publiques à échéance initiale de plus d'un an et la plupart des émissions du même genre placées à titre privé. Les emprunts du gouvernement canadien, des provinces et des municipalités comprennent les obligations émises sous garantie de ces derniers. Depuis le 5 novembre 1986, une modification d'ordre comptable a été apportée au traitement des obligations d'épargne vendues selon le Mode d'épargne sur le salaire. Les montants de ces obligations sont maintenant ajoutés à l'encours de ces titres à mesure que se font les retenues sur le salaire; ces retenues sont évalées sur la durée des contrats. Auparavant, la valeur totale des ventes selon le Mode d'épargne sur le salaire était ajoutée à l'encours de ces titres en novembre. Les intéressés peuvent se procurer au département des Études monétaires et financières de la Banque du Canada les données relatives aux émissions nettes d'obligations en dollars canadiens placées à l'étranger par les provinces, les municipalités, les sociétés financières et non financières. Il s'agit là de statistiques semestrielles remontant à 1974.

Avant le 31 décembre 1971, la valeur nominale des émissions du gouvernement canadien libellées en monnaies étrangères était convertie en dollars canadiens aux cours suivants : du 30 septembre 1950 au 3 mai 1962, 1 \$ É.-U. = 1 \$; par la suite, 1 \$ É.-U. = 1,081 \$; du 30 septembre 1950 au 3 mai 1962, 1 £ = 2,800 \$; du 3 mai 1962 au 18 novembre 1967, 1 £ = 3,027 \$; par la suite 1 £ = 2,995 \$; avant le 26 octobre 1969, 1 DM = 0,270 \$; par la suite, 1 DM = 0,295 \$; du 15 mai 1968 au 24 juin 1970, 1 Lit = 0,00173 \$. Depuis le 31 décembre 1971, cette conversion s'effectue au cours du comptant à midi le jour de la livraison. Pour toutes les autres émissions libellées en monnaies étrangères, on utilise comme taux de conversion la moyenne mensuelle des cours du change à midi. Dans le cas des titres payables en dollars canadiens ou en une autre devise, l'option la plus favorable aux prêteurs a été retenue. Les statistiques relatives aux opérations suivantes sont disponibles sur une base trimestrielle à partir de 1935 : émissions brutes, rachats et émissions nettes de titres du gouvernement canadien ainsi que d'obligations des provinces et des sociétés. Les statistiques des émissions brutes d'obligations placées sur les marchés étrangers, à savoir le montant global et le montant de la tranche placée aux États-Unis, remontent à 1960. Les statistiques relatives aux titres hypothécaires garantis en vertu de la LNH remontent à 1987, et celles des autres titres à terme émis par des sociétés spécialisées sont disponibles à partir de 1994.

• Les obligations des provinces comprennent les titres achetés par une province ou avec des fonds provenant du Régime de rentes du Québec.

• Les obligations des municipalités ne comprennent ni les titres émis sous la garantie d'une province, ceux-ci étant recensés comme obligations des provinces, ni les titres vendus directement aux provinces ou à leurs agences, lesquels sont recensés au Tableau F8. Les données trimestrielles concernant les remboursements des titres des municipalités sont des données estimatives que l'on a obtenues en divisant par quatre le montant des remboursements prévus pour l'année entière et en ajoutant, le cas échéant, des données partielles pour certaines grosses municipalités.

• Les obligations des sociétés englobent toutes les émissions de sociétés canadiennes, à l'exclusion toutefois du papier émis par les sociétés de financement et du papier commercial dont l'échéance ? l'émission ne dépasse pas un an, ainsi que les émissions vendues à la société mère, que cette dernière soit constituée au Canada ou à l'étranger. • Les actions privilégiées ou ordinaires figurent au prix d'émission, et les rachats, au prix effectivement payé par la société intéressée. En vertu de l'article 91 de la Loi sur les compagnies d'assurance-vie canadiennes et britanniques, les rachats d'actions ordinaires ne comprennent pas le rachat, par une compagnie d'assurance-vie, de ses propres actions. Ont été considérés comme des achats d'actions, en 1961 et en 1964, la distribution par la British Columbia Power Corporation à ses actionnaires des fonds qu'elle avait reçus de la province de la Colombie-Britannique en paiement des actions ordinaires et privilégiées de la British Columbia Co. Ltd, en 1963, l'achat par Hydro-Québec d'entreprises hydro-électriques privées et, en 1972, l'achat par la Nova Scotia Power Commission de la Nova Scotia Light and Power Company Limited.

• Les données relatives aux titres hypothécaires garantis en vertu de la LNH se rapportent aux opérations de titrisation effectuées dans le cadre du Programme des titres hypothécaires LNH et sont déclarées par le fiduciaire de ce programme, la Compagnie Montréal Trust du Canada.

- Data for other term securitizations represent other term securities issued by special purpose corporations.
- For short-term paper see the note to Table F2.
- Effective 5 February 1997, data on Canada Savings Bonds outstanding have been combined with data on Canada RRSP Bonds outstanding under the heading *Canada Savings Bonds and other retail instruments. Separate series for Canada Savings Bonds and Canada RRSP Bonds are available on the CANSIM data base.* (Tables F4 and F5).
- Effective September 1997, two new components, Canada Notes and Euro Medium-Term Notes (dating March 1996 and July 1997, respectively) were included with existing bond series in the Tables F4, F6, and F7.
- Transactions of other institutions and foreign borrowers (Table F9) include issues of Canadian religious and other institutions and issues placed in Canada by foreign borrowers. New issues of foreign borrowers amounted to \$20 million in 1961, \$5 million in 1964, \$25 million in the first quarter, and \$7 million in the fourth quarter of 1965, \$20 million in 1966, \$20 million in 1967, \$15 million in 1968, \$25 million in 1971, \$20 million in 1972, and \$20 million in 1975. Issues by foreign borrowers have been retired throughout the period covered. In Table F6, the small amount of security issues of institutions placed abroad has been included in the total.
- Financial corporations (Table F10) include the finance company subsidiaries of automobile companies; to the end of 1972, all other subsidiary companies engaged in financing the parent companies' sales are classified with the parent company; from 1973 on, they are classified as financial.

• Bonds include issues of Canadian corporations, payable in Canadian and foreign currencies, placed in Canada and abroad. Issues payable in foreign currencies have been converted into Canadian dollars at the average noon market rate for the month of delivery.

• Stocks include common and preferred stocks issued by Canadian corporations in Canada and abroad. Issues sold to a parent company in Canada or abroad are excluded. For the years before 1980 several stock issues, generally of less than \$1 million, are not classified by industry but are included in the total. For those years, therefore, the components do not add up to the total. Classification by industry is generally based on the 1980 Standard Industrial Classification published by Statistics Canada. Most holding companies are classified as financial companies. Agriculture, fishing, trapping, logging and forestry industries are included in the *service and other category*.

• Les obligations englobent les émissions de sociétés canadiennes, libellées en dollars canadiens ou en monnaies étrangères, qui sont placées au Canada ou à l'étranger. La valeur des émissions libellées en monnaies étrangères a été convertie en dollars canadiens au taux correspondant à la moyenne mensuelle des cours du change à midi, le mois de la livraison.

• Les actions comprennent les actions ordinaires ou privilégiées émises par les sociétés canadiennes au Canada ou à l'étranger. Les émissions vendues à une société mère, au Canada ou à l'étranger, sont exclues. Pour les années antérieures à 1980, plusieurs émissions d'actions, en général d'une valeur inférieure à 1 million de dollars, ne sont pas réparties par branche d'activité économique, mais sont comprises dans le total. Par conséquent, pour ces années, il est possible que la somme des différents éléments ne corresponde pas au total. La répartition par branche d'activité économique s'appuie dans l'ensemble sur la *Classification type des industries* qu'a fait paraître Statistique Canada en 1980. Les statistiques relatives à la plupart des sociétés de portefeuille sont comprises dans celles des sociétés financières. Les statistiques relatives à l'agriculture, la pêche, le piégeage et l'exploitation forestière figurent sous la rubrique *Services et autres industries*.
